COMPLIANCE MANAGEMENT (CM)

DESCRIPTION OF SERVICE: This group of providers includes consulting firms, BPO services companies, and others intimately familiar with Sarbanes-Oxley and other regulations affecting the outsourcing industry. Includes providers for whom fee-based accounting and regulatory compliance services are a significant portion of their revenues.

CUSTOMER SERVICES & CALL CENTER MANAGEMENT (CS)

DESCRIPTION OF SERVICE: Outsourced call centers for internal customers, such as employees, and external customers have been all the rage since the mid-1980s. When the government of India, through Nasscom, made call center development a national priority, it also expanded the market for call centers five-fold from 1990 to 1995 by lowering prices 50 to 70 percent.

STATEMENT PROCESSING (SP)

DESCRIPTION OF SERVICE: Printed customer statements in financial services alone is estimated to use more paper each year than all the newspapers printed in North America. And while this segment's paper consumption is huge, its data management capability is even bigger.

TRUSTEE SERVICES & TRUST ADMINISTRATION (TS)

DESCRIPTION OF SERVICE: Without trustees, many financial markets of today and yesteryear would have collapsed for lack of, well, trust. Trustee services are essential to moving money between institutions, individuals, and generations. And with so much money moving between those three parties comes a huge administrative burden, a need met by trust administrators.
