

**Finance & Accounting**

**WHAT YOU NEED TO KNOW:**

Cost reduction and driving process efficiency are main factors encouraging interest in outsourcing financial services reports Ovum Research. In fact, the group found the number of F&A outsourcing projects valued at \$1 million or more increased in 2012 compared to the year before. Financial and administrative outsourcing services include accounts payable, accounts receivable, claims processing, credit and collections, general accounting, financial management, financial reporting and risk management, investor relations, payroll and expense management, recovery audit, tax management, and treasury and investment management.
