Information Technology

WHAT YOU NEED TO KNOW:

IT outsourcing is a big business and it's starting to hit its stride in medium-sized companies. According to *Computer Economics*'s annual outsourcing study, *IT Outsourcing Statistics 2013/2014*, midsize companies are spending 7.7 percent of their IT budget on outsourcing. Services include application development; architecture consulting; business intelligence; content management; data security and warehousing; enterprise resource planning; e-procurement; system integration; technology infrastructure; and web hosting, development, and services; to name a few.
